### PROFESSIONAL SUMMARY

Results-driven Assistant Project Manager with 2+ years of progressive experience in the market research industry, specializing in end-to-end project management across B2B, B2C, and Healthcare research verticals. Proven track record of managing complex research projects from inception to delivery, coordinating cross-functional teams, and ensuring on-time, high-quality output. Adept at client communication, stakeholder management, fieldwork coordination, data quality oversight, and strategic reporting. Currently leading project operations at DreamlockMR Pvt. Ltd., driving efficiency and growth across multiple concurrent research engagements.

### WORK EXPERIENCE

#### Assistant Project Manager | DreamlockMR Pvt. Ltd.

Jan 2025 – Present

- Oversee end-to-end project management for B2B, B2C, and Healthcare research studies, ensuring seamless execution from briefing to final delivery.
- Manage project timelines, resource allocation, and budgets while coordinating with internal teams, vendors, and clients simultaneously.
- Liaise directly with clients to understand research objectives, provide project updates, and manage expectations throughout the project lifecycle.
- Lead kickoff meetings, set milestones, and track deliverables using structured project management frameworks to ensure 100% on-time delivery.
- Monitor fieldwork quality, data collection progress, and quota management across online and offline research methodologies.
- Collaborate with data processing and reporting teams to ensure accurate analysis, insight generation, and timely report submission.
- Identify project risks proactively and implement mitigation strategies to minimize delays and cost overruns.
- Mentor and guide junior research analysts, fostering a high-performance team culture focused on quality and precision.

#### Team Lead – Research Analysis | DreamlockMR Pvt. Ltd.

Jun 2024 – Jan 2025

- Led and managed a team of 5+ research analysts, overseeing daily project assignments, workload distribution, quality checks, and individual performance reviews.
- Coordinated multi-project workflows simultaneously, ensuring accurate and timely data collection, analysis, and client reporting within tight and competing deadlines.
- Acted as the primary escalation point for all project-level challenges, resolving operational issues quickly and effectively to maintain high client satisfaction scores.
- Established standardized quality control processes for data validation and report review, reducing error rates and improving overall output quality.
- Collaborated closely with senior leadership and stakeholders to align team outputs with broader business objectives and evolving client requirements.
- Conducted regular team briefings and training sessions on research methodologies, tools, and best practices to upskill analysts.

- Tracked and reported team KPIs including project completion rates, turnaround time, and accuracy metrics to senior management on a weekly basis.

Senior Research Analyst | DreamlockMR Pvt. Ltd.

Jun 2024 – Dec 2024

- Conducted detailed market research across B2B and B2C sectors, analyzing data trends to deliver strategic insights and actionable recommendations.
- Managed research projects independently, including questionnaire design, sampling strategy, and end-to-end fieldwork coordination.
- Prepared comprehensive reports and client presentations communicating key findings clearly and effectively to both internal and external stakeholders.
- Supported business development by contributing to proposals, methodology design, and client pitch presentations.

Research Analyst | DreamlockMR Pvt. Ltd.

Feb 2024 – Jun 2024

- Gathered, analyzed, and interpreted quantitative and qualitative research data using industry-standard tools and methodologies.
- Assisted in designing survey instruments, screeners, and discussion guides for consumer and B2B research studies.
- Generated reports, dashboards, and presentations to communicate research findings to internal and external stakeholders.
- Collaborated cross-functionally with project managers and fieldwork teams to ensure smooth and timely project execution.
